Heavy duty waterproof membrane

Colourful and heavy duty membrane designed to last over the years and to adapt to any project

Major advantages

- Satin finish
- Reinforced dirt resistance and easy cleanability
- Heat and weather protection
- High UV resistance
- High dimensional stability due to Precontraint® technology

Technical specifications

Weight	570 g/m ² - EN ISO 2286-2
Thickness	0.45 mm
Standard format length	40 lm
Tensile strength (warp/weft)	200/200 daN/5 cm - EN ISO 1421
Tear strength (warp/weft)	20/20 daN - DIN 53.363
Flame retardancy	B-s2, d0 /EN 13501-1 M2 /NFP 92-507 — B1 /DIN 4102-1 — BS 7837 — 1530.2 et 3 /AS/NZS M2 /UNE 23.727-90 — VKF 5.3 /SN 198898 — Schwerbrennbar Q1-Tr1 /ONORM A 3800 Group 1 /AS NZS 3837 — CLASS 2 /UNI 9177-87 — METHOD 1 & 2 /NFPA 701 CSFMT19 — CLASS A /ASTM E84 — G1 /GOST 30244-94 — CAN/ULC-S109 — CPAI 84
Warranty	10 years
MOQ	2500 lm

Warranty

For a term of three years from the date of the original purchase invoice, all our canopies are covered under warranty in accordance with the following details: -

1.Fabric - The fabric makes, and colour name or code shall be in accordance with the specification on the order confirmation issued by Playground Projects Ltd or our agents prior to manufacture. It is the client's responsibility to check that the order confirmation is correct and to advise Playground Projects Ltd immediately if not.

Please note, whilst every care is taken to ensure the colour of the fabric is uniform across the canopy, Playground Projects Ltd or our agents do not accept responsibility for any colour variances deemed within tolerance by the fabric manufacturer; or variances visible due to light transmission or warp orientation.

2.Creases – The canopy shall be free of any significant creases once it is properly tensioned into place.

Please note, the canopy needs to be maintained under tension for at least two weeks to allow any minor creases to settle in.

3.Quality – The canopy shall be supplied free of any manufacturing defects, such as cloth faults or mis-weaves (deemed outside of the tolerance permissible by the fabric manufacturer); missing or insufficient welds; broken or out of place or insufficient stitching.

4.Wind/snow load – The canopy is guaranteed to be safe and undamaged by wind or snow in accordance with the load case stated on the order confirmation issued by Playground Projects Ltd or our agents prior to manufacture to the following limits:-

LC30 - 30mph wind and/or 150mm of snow

LC60 - 60mph wind and/or 300mm of snow

Please note, the warranty does not cover :-

(a) Damage caused by lack of tension due to the rigging coming loose or the structure or foundations moving or failing.

(b) Damage caused by external factors such as trees or branches coming in to contact.

(c) Damage caused by any person climbing on to the canopy.

(d) Damage caused by deliberate vandalism.

5.UV degradation/fade – The canopy is guaranteed not to suffer any significant fade or UV degradation during the term of the warranty so as to impede its performance, safety or aesthetic appearance.

Please note, all of our standard fabrics also carry their own warranty issued directly by the fabric manufacturer, but any claims made against the fabric after this warranty has expired are to be pursued directly with the fabric manufacturer by the client.

6.Damage – The canopy is guaranteed to be free of any dirt or damage at the point at which installation has been completed. Please note, it becomes the responsibility of the customer once Playground Projects Ltd or our agents have left the premises after installation. The customer should check the goods and report any damage prior to Playground Projects Ltd or our agents leaving the premises after installation is completed.

7.Remedial action – Should a breach of warranty be established, at its discretion Playground Projects Ltd or our agents shall repair or replace or refund the price of the defective goods.
